TAPES

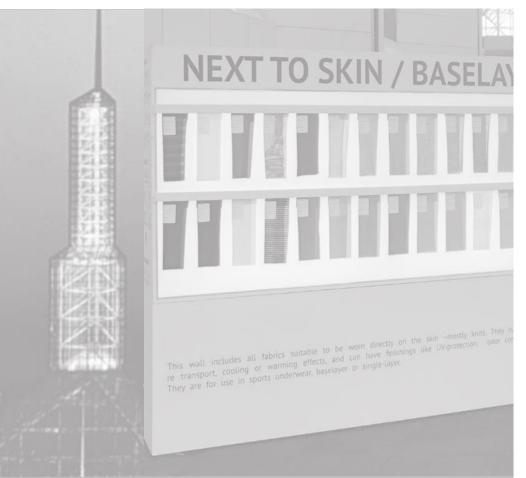

SUSTAINABILITY

NEXT TO SKIN / BASELAYER

Focus technical knits

- General trend: open constructions for ventilation, partially 3D to contribute to constant dry feeling next to skin
- Many sustainble approaches

NEXT TO SKIN / BASELAYER

Biodegradable polyester – graphene print – thermal properties - creative variety of of structure - endency to natural blend materials next to skin, such as tencel, hemp, linen, very little merino, Repreve polyester from ocean plastic - Recycled nylon as well as recycled polyester - Recycled nylon with recycled elasthan fibre - Knit construction without elasthan for better recycling option – Lenzing traceable tencel

MIDLAYER

Focus technical High pile and Sherpa

• General trend: High pile – teddy style – boiled wool - textures

MIDLAYER

Creating volume without brushing was in New York -

Here it's all about textures - Some recycled polyester - Some dope dye

SOFTSHELL

Focus fashionable or very technical

Spacers or natural fibres as brushed backings – The call to smart fabric engineering and use in the clothing industry

SOFTSHELL

- Reflective surfaces
- Bonded knits 3D structures –
- 3Layer with spacer backing

2.5 & 3LAYER

Diversity

Good selection in 2.5 Layer-

Airpemable electrospinning membrane- 3D backer

2.5 & 3LAYER

FUNCTIONAL
FABRIC FAIR
POWERED BY PERFORMANCEDAYS
MUNICH | NEW YORK | PORTLAND

- Full Polyester fabric including shell and membrane
- Recycled Nylon & Polyester

2LAYER

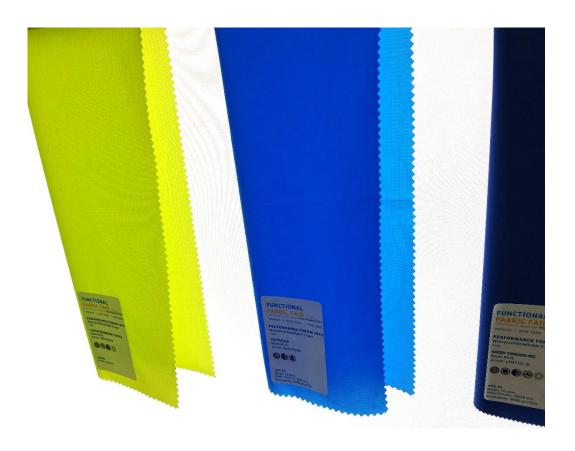

Great selection

Nice variety of surfaces from technical to natural

2LAYER

- Organic hemp -Cordura knit Recycled polyester Full Polyester fabric including shell and membrane Recycled Nylon Sorona
- Super lightweight

HIGHDENSITY / LIGHTWEIGHT

The hottest category

• For the first time one 7x4 denier – 18g/sqm – downproof nylon

HIGHDENSITY / LIGHTWEIGHT

MUNICH | NEW YORK | PORTLAND

• Funky structures and surfaces - Crinkle trend - 3D effects

ACTIVE STYLE

- Nice technical knits
- 3D prints funky crinkles new camou optiques

ACTIVE STYLE

heat embossing and bonding insulation

SHIRTS WOVEN & KNIT

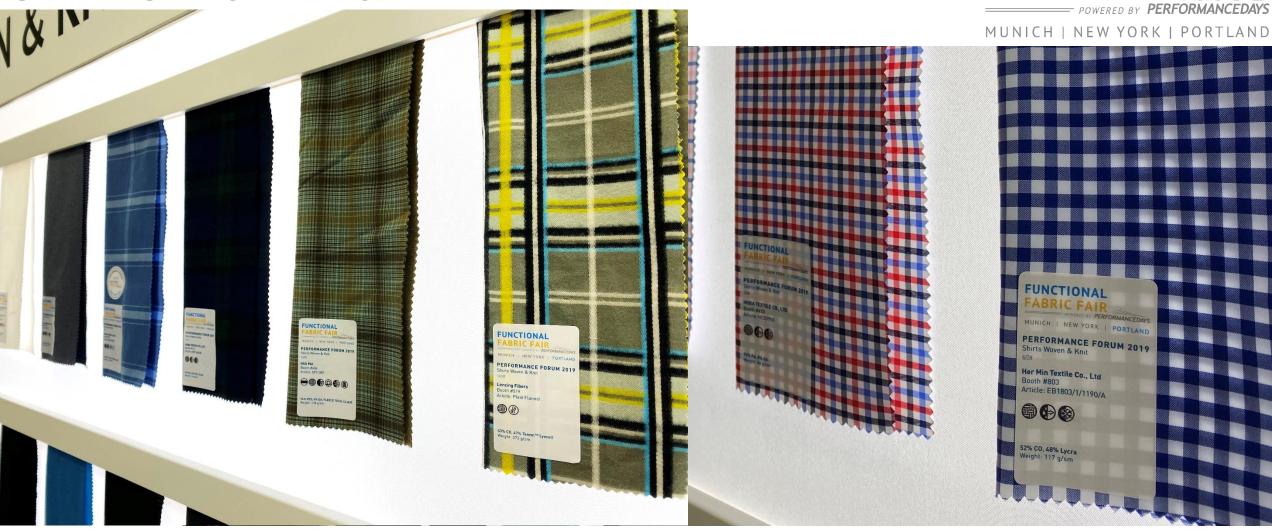

SHIRTS - Trend open structures by melting yarns

SHIRTS WOVEN & KNIT

- Nice checks
- flannels

PANTS WOVEN & PERFORMANCE KNIT

PANTS - You will find fabrics for hiking, trekking, some functional denim, cycling, Yoga and travel

PANTS WOVEN & PERFORMANCE KNIT

- Recycled PA with recycled EA
- Sustainable PA wool bi stretch

ACCESSORIES / TRIMS

- Lables
- Zips tapes

ACCESSORIES / TRIMS

MUNICH | NEW YORK | PORTLAND

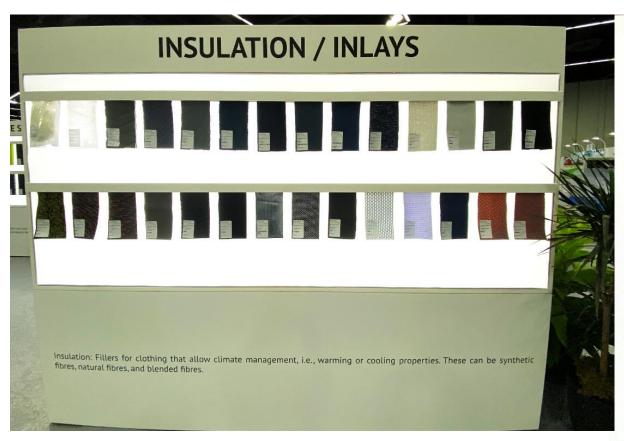

I-warm technology

INSULATION / INLAYS

Variety of new insulations

INSULATION / INLAYS

- Heatbonded
- High pile structured fleece
